A visit to the "Mahatma Gandhi" OLD AGE HOME,ARCOT

The CS-TGWS proposed a visit to a nearby old age home. The students from 6th and 7th Alpha & Beta happily volunteered to go in groups of eleven along with Ms. Stella, Ms. Ramya and Mr.Xavier between 10 to 12.30 pm on 10th August 2016. It was not made compulsory and the students could volunteer to go.

The students visited the home. As soon as they stepped in, the 'mature' cheered to see them. The students joined hands and greeted them with a great smile, some went along shaking hands and some said a hello. They conversed with the ladies and even sang for them. After that, they moved to the men's section and talked to the gentlemen there. At eleven-thirty, the students staged short cultural activities to the elderly people and a few women shared their joy singing a few songs for us. The manager offered us a high tea as a token of their gratitude towards our initiatives.

Objectives of the visit :

To create awareness among students about the neighbourhood

To sensitize students to social work

To sensitize students to the predicaments and problems of aged people

To become aware of the joy of serving and being with the aged

To wrap it up in simple words, it was a wonderful experience and an opportunity to discover empathy within us.

TGWS Community Service - Juvenile Delinquents

As part of the CS annual activities we visited one of the homes for Juvenile Delinquent at Karai, Ranipet. There were 12 student participants from Grades 6 Beta and 7 Alpha and two teacher participants namely Ms. Ramya and Mr.Xavier representing the CS team. Being our maiden attempt we staged an hour long cultural programme like dance, stand-up comedy and group singing along with showcasing a few Tamil Short Films. There was good appreciation of our efforts and strong positive feed-back about the short films. The home students were so cooperative and displayed huge size of hospitality and welcoming attitude. This types of Action Plan by TGWS emphasizes the importance of enhancing delinquency prevention efforts and coordinating them throughout the community. It focuses on what we know about factors that put these types of children at risk of becoming delinquent or serious and violent offenders as well as those that protect youth. It encourages students communities from our school to take steps to reduce characteristics that contribute to delinquency while strengthening characteristics that nurture youth. Our frequent collaborative measures will generate a positive youth skill building, conflict resolution, and community service and eventually it can work to prevent or reduce juvenile delinquency and serious juvenile violence, especially when coordinated with broader communitywide efforts.
