Independence Day

TGWS celebrates India's 79th Independence Day

The 79th Independence Day was celebrated with great enthusiasm and patriotic fervour at TGWS on August 15, 2025. The school premises were beautifully decorated with tricolour flags, flowers, and posters depicting freedom fighters and national symbols.

The celebration began at 8:00 a.m. with the hoisting of the National Flag by the Head of School, Mr. Ram Kumar, followed by the singing of the National Anthem, which filled the atmosphere with pride and patriotism. The Head Boy, Jishnu, welcomed the gathering. Devi Durga and Afrah Nausheen from Grade 6 delivered speeches highlighting the role of students in nation-building while also remembering the great leaders and their contributions to the nation.

A short cultural programme was presented by the students, which included patriotic songs, dances, and skits portraying the sacrifices made by our freedom fighters. A special play on the life of Begum Hazrat Mahal, highlighting her bravery during the Revolt of 1857, was performed and received great appreciation from the audience. The programme concluded with a vote of thanks proposed by our Head Girl, Miruthula. The day was memorable, instilling a deep sense of pride and responsibility in everyone's heart.

Jai Hind!

Sparta

The Geekay World School, Ranipet, celebrated its 16th Annual Sports Meet, SPARTA, on August 30, 2025, with grandeur, energy and spirited participation. The day was a perfect blend of colour, camaraderie, and competition, bringing together students, staff, parents and dignitaries to celebrate the true essence of sportsmanship.

The ceremonial arrival of the Chief Guest, Ms. D. P. Ezhilmathi, an International Volleyball player, was marked with a rousing school band performance and the proud march of the student council. She was warmly received by Mr. Vinod Gandhi (Managing Director), Mr. Ram Kumar (Head of School), and the Coordinators.

The school song was rendered with pride, followed by the welcome address from Sports Captain, Trinity Devi. One of the most captivating moments of the morning was the March Past. The four houses, Air, Earth, Fire, and Water, marched in synchrony, saluting with precision and discipline. Leading the parade were Head Boy Jishnu A, Head Girl D. Mirudhula, Sports Captain Trinity Devi, Vice-Captain Harsh P, Cultural Secretary Darshita Prakash and other student leaders who epitomised grace and leadership.

The lighting of the torch added symbolic brilliance to the event. Sports Captain, Trinity Devi, lit the cauldron, thus symbolically initiating the event. The oath-taking ceremony, led by Trinity Devi, pledged every student to uphold fairness and discipline in Sports.

In her address, the Chief Guest, Ms. D.P. Ezhilmathi, praised TGWS for fostering a strong sporting culture and reminded students of the importance of discipline, focus and teamwork. She later declared the Sports Meet open.

The day unfolded with a lively sequence of track events, field competitions, and cultural drills. The Kindergarteners delighted the audience with their Butterfly Drill, followed by the Lower Primary Frame Drill, the Upper Primary Chess Drill, and the Middle School Pole Drill. The Secondary School presented a serene and powerful Yoga Display, showcasing balance and discipline. Each drill reflected creativity, rhythm, and teamwork, earning thunderous applause from the audience.

The track events included the 80m, 100m, and 200m races across sub-junior, junior, senior, and super senior categories, in addition to the much-awaited relay races for all levels. The relays, especially the Senior Secondary Mixed Relay, stood out as electrifying contests of speed and coordination. The Kindergarten and lower primary track events added charm and cheer, while the parents' events brought infectious energy, proving that sporting spirit runs across generations at TGWS.

The highlight of the day was the prize distribution ceremonies, where winners of the track events were felicitated by the Chief Guest and other dignitaries. Individual championships were also awarded, recognising the hard work and excellence of outstanding athletes.

The event concluded with the distribution of prizes for parents, teachers, and non-teaching staff, honouring every part of the TGWS community. The final announcement of the Overall House Championship brought the day to a spirited close, as the victorious Fire House was cheered by all.

With vibrant displays, competitive events, and heartwarming moments, TGWS Sparta 2025 truly embodied the values of speed, spirit and sportsmanship. It was a celebration not only of athletic excellence but also of unity, resilience and the joy of being part of the TGWS family.

CM Trophy

TGWS hosts Chief Minister's Trophy

The Chief Minister's Trophy Swimming and Basketball competitions were held in TGWS on 26.08.25. Shri. R. Gandhi, Minister Handlooms & Textiles, Tamil Nadu inaugurated the event in the presence of Dr. J. U. Chandrakala IAS, Collector, Ranipet District, Mr. J. L. Eswarappan, MLA, Arcot, Mr. Vinod Gandhi, Managing Director, TGWS and Mr. Gyanasekaran, District Sports Officer. More than 600 participants from various schools in Ranipet Dt. Participated in this event. We are happy to share that our students won several prizes in the swimming competition.

Colour Of The Month - Blue

August began on a cheerful note as Kindergarten celebrated the Colour of the Month with a fun Smurf theme. Both the teachers and children were dressed in bright blue attire, filling the classrooms with colour and excitement. As part of the celebration, our little ones created an adorable takeaway craft: a Smurfette finger puppet, which they proudly carried home!

Special Week - Friendship Day

Kindergarten celebrated Friendship Day with heartfelt creativity. Each child made a special friendship band and tied it to a friend's hand as a token of love and care. K1 crafted adorable butterfly friendship bands from paper. K2 designed braided, colourful bands decorated with cheerful smiley stickers. K3 used beads and string to create beautiful, sparkling bands.

This activity not only showcased their creativity but also taught the true meaning of friendship, sharing, caring, and spreading smiles.

Home Parent-Teacher Meeting

This month, our teachers took learning beyond the classroom through home visits. Meeting the children in their own environment provided us with valuable insights into their routines, interests, and behaviour at home. Parents extended a warm welcome, and the visits turned into fun-filled interactions that strengthened the bond between school and family.

Outdoor Activity

Our kindergarteners enjoyed exciting outdoor activities designed to build balance, safety awareness, and sensory skills through fun, hands-on experiences.

K1 – Balancing Beam Challenge: Children walked carefully on a beam while carrying a water-filled balloon, learning to balance and coordinate their movements. The challenge concluded with them placing the balloon in a basket without breaking it, which was a fun way to build focus and control!

K2 – Fire Safety Drill: Kindergarten 2 students learned the importance of fire safety. They explored fire safety equipment and practised how to extinguish a fire using sand, water, and extinguishers. Teachers demonstrated the “Stop, Drop, and Roll” technique to show what to do if clothing catches fire.

K3 – Feel and Find: Children were blindfolded and guided along a textured path. Using only their feet, they felt various surfaces and tried to guess what they were. This activity sharpened their senses and built confidence in exploring through touch.

Field Trip

Learning stepped out of the classroom as our Kindergarteners explored new places and experiences.

K1 children visited a hotel, where they enjoyed a variety of delicious meals and learned how food is served in a real dining setting. K3 children visited a Big family , discovering different family members, their roles, and how they live together with love and care.

These trips gave our little learners the chance to see the world beyond school and connect their lessons to everyday life.

Resource Parent

Our Resource Parent Sessions brought valuable real-world lessons right into the classroom! One parent from each Kindergarten class shared their knowledge and experiences with our young learners.

Ms. Reshma, mother of Hiyansh from K1, spoke about good manners and helped children understand the importance of being polite and kind. Ms. Jerry Sundar, mother of Jake Oliver from K2, discussed cleanliness and demonstrated an exciting experiment with soap, pepper, and water to show how washing hands keeps germs away. Ms. Fay Samuel, mother of Abraham Paul from K3, shared insights on road safety, teaching children simple rules to stay safe while walking or travelling.

These interactive sessions enriched the children's learning and created a wonderful partnership between parents, teachers, and students.

Dance Activity - Farmer Theme

Our Kindergarteners stepped into the shoes of farmers for a lively dance performance! Dressed in hats and farmer outfits, the children joyfully danced to the tune of the classic "Old MacDonald" rhyme, celebrating farm life with cheerful movements and happy smiles.

Talent Hunt Show

Our Kindergarten Talent Hunt Show was a wonderful display of creativity, confidence, and enthusiasm. Each class showcased unique activities designed to bring out the best in our little stars. K1 children played "Squeeze Your Brain," a memory game where they identified matching pictures on flashcards. K2 children confidently recited self-chosen songs of at least four lines on the theme of cleanliness, spreading an important message through music. K3 children amazed everyone by performing original rap songs in English about the five senses, blending rhythm with learning. It was truly a day to celebrate talent and imagination.

Student Article

Caring too much is equal to a pitfall

Caring about what people think isn't always a bad thing; sometimes it keeps us aware of our actions. However, it can feel like we are placing our self-worth in the hands of others, much like relying on report cards. This connects to the concept of ego, which is defined as "a person's sense of self-esteem or self-importance." Essentially, it's the inner voice that tells us, "I matter." A healthy ego is different from a fragile one. When we overly concern ourselves with others' opinions, we allow our ego to dictate our actions instead of our values. However, when we nourish our ego with self-respect and truth, it becomes a protective shield.

It's also important to realise that not all opinions are worth believing. We need to be discerning about whom we trust. Some people voice their thoughts out of jealousy, insecurity, or misunderstanding. It's unwise to invest energy in false narratives; they are not worth your trust. Some may spread rumours not because they know you, but because they wish they could be you. So ask yourself, "Is this person on the same journey as I am? Are they rooting for me, or merely watching from the sidelines?" If we accept every opinion we hear, we risk living someone else's version of our life. Remember, wisdom often hides in darkness; it is your responsibility to bring it to light!

Teacher the Inspirer

Teachers are the guiding lights of society, shaping the future of students with their knowledge, patience, and dedication. They not only impart education but also instil values, discipline, and confidence in young minds. A teacher plays multiple roles: mentor, motivator, and sometimes even a friend, helping students overcome challenges and discover their potential. The bond between a teacher and student is built on respect, trust, and inspiration. Great teachers go beyond textbooks and prepare learners for real-life challenges. They inspire curiosity, creativity, and critical thinking, the essential ingredients for success. Teachers' Day is celebrated on 5th September in India to honour their selfless service. Truly, teachers are nation-builders, as they nurture individuals who go on to shape society and the world.

Teacher Talk

Being a science teacher has been one of the most rewarding experiences of my life. Every day, I walk into a classroom full of curiosity, energy and eager minds. I've learnt that teaching science isn't just about facts and experiments; it's about sparking wonder.

I feel truly proud when I see my students relate classroom concepts to real life. That moment when they say, 'Oh, now I get it!', that's what makes teaching meaningful. Watching them grow from memorising to understanding, that transformation is my biggest reward as a teacher.

Relating concepts through hands-on activities not only sparks interest but also helps them understand better and remember longer. When students experiment, observe, and explore, science becomes real, not just a subject, but a way of thinking. That's when true learning happens.

Over the years, I've realised that patience, creativity, and connection matter just as much as the syllabus. And nothing beats the joy of seeing a student light up when a concept finally clicks. That's the magic of being a science teacher. We must inspire students to ask questions, think critically, and explore beyond the textbook

A good science teacher makes learning fun, connects theory to real life, and encourages hands-on discovery. Most importantly, we should be patient, passionate, and open to learning ourselves because when we grow, our students grow too.

Parent Talk

The GeeKay World School provides a truly comfortable learning environment, where the encouragement of the faculty helps children focus on their studies while exploring new concepts with curiosity and confidence. Field trips and roadshow activities are highly appreciated, as they not only broaden students' knowledge but also create public awareness. The faculty members inspire every child to excel not only in academics, but also in sports and various talent-oriented programmes. Teachers' nurture and support students' ideas and visions by encouraging them to participate in inter-school competitions, helping them grow into confident and capable individuals. The integrated programme introduced by the school has been instrumental in enhancing students' knowledge, enabling them to plan and prepare for their future careers with clarity and strength. Educational visits to various states and countries provide students with valuable opportunities to explore their cultural heritage and witness technological advancements firsthand. We sincerely wish the school to continue its remarkable efforts in shaping bright Geekayians, who will strengthen and enrich our nation's future.
